## Quality Policy

- Uniqueness of technology and know-how ensure high added value of the offered products
- The purpose of our work is to meet the needs of our clients in a transparent, timely and high-quality manner
- By the constantly improving management processes, increasing reliability and performance and positively motivating all employees, we actively use the market potential and create strong, mutually beneficial partnerships with current and future customers.
- In cooperation with our business partners and suppliers, we offer a comprehensive range of services and solutions and we work to continuously improve standards.
- The company management emphasizes the prevention and avoidance of errors, including compliance with legal and other requirements.
- All employees are held accountable for processes and results in order to achieve greater efficiency

### **We want to be:**

- A world leader in the innovation and application of Mössbauer spectrometers
- The world's leading manufacturer of Mössbauer spectrometers and related services
- A reliable business partner for customers and suppliers

### **The company's management is committed to:**

- Adhere to the above principles
- Comply with the requirements of laws, regulations and quality standards
- To continuously improve the quality management system
